

The Super Power of Observation

Even super heroes have to train their skills. During the video, you will be asked to practice using the prompts I notice..., I wonder..., Its reminds me of... These prompts will help you develop your ability to answer your questions about the world around through the power of observation.

Before the Video

How do we use our senses to make observations?

During the Video

Pause the video at 3:10 when you see the item pictured above. List things you notice about this item.

Pause the video at 4:08 when you see the item pictured above. List things you wonder about this item.

Pause the video at 5:15 when you see the item pictured above. List things this item reminds you of.

Thinking Like a Scientist

Time to practice your new super power! Visit a natural place in your community. This could be your backyard or a near by park. Use the prompts below to make observations. Record three of your observations in the boxes below. You can write or draw your observations.

I NOTICE...
